**GUIDE TO THE CERTIFICATE OF COMPLIANCE/
LOT LINE ADJUSTMENT APPLICATION**

As authorized under the provisions of Section 66412(d) of the State Subdivision Map Act, a lot line adjustment may be approved between two or more existing adjacent parcels where the land taken from one parcel is added to an adjacent parcel, and where a greater number of parcels than originally existed, are not thereby created.

All lot line adjustments receive the comprehensive review required of land divisions.

The following instructions are intended to provide the necessary information and procedures to facilitate the processing of Lot Line Adjustment applications. Your cooperation with these instructions will insure that your application can be processed in the most expeditious manner possible.

CRITERIA FOR ACCEPTANCE OF ALL FILINGS:

- Parcels or lots approved under the procedures of the Subdivision Ordinance or any former County Ordinance regulating the design and improvement of subdivisions.

- No additional parcels will result from the lot line adjustment and any land taken from one parcel will be added to an adjacent parcel.
